

Intercom System

System Includes:

- ◆ 3M D-20 Intercom master station
- ◆ Power supply
- ◆ Pedestal mount
- ◆ Speaker / horn
- ◆ Handset & cradle switch
- ◆ Cable, twisted 2 pair

This complete intercom system consists of a master console, outdoor station, (hand held traditional handset to be used by the trucker and speaker horn to instruct driver if required) and 150 feet of communication cable. Clear communication is achieved with this truck probe accessory saving the elevator from confusion and wasted time. Master station suitable to communicate with up to six locations. Use of this communication system keeps drivers from leaving their trucks and slowing elevator operations.
